HISTORY OF BEYLE FUNERAL HOME

Ferdinand Beyle was a native German who immigrated to the U.S. in 1867 as a young man. He was a carpenter and undertaker by trade. Ferdinand initially settled in Oswego, Labette County, Kansas, where he became a leading businessman in furniture for southern Kansas. He was also an innovator, receiving a U.S. patent for a type of harness. Ferdinand Beyle was a prominent member of society. While serving as president of the Chamber of Commerce in Colorado City, El Paso County, Colorado, he was successful in securing funding and a suitable site for a Carnegie library. Today this library is part of the Pikes Peak Library District.

After nearly twenty years in Oswego, Ferdinand and his family removed to Colorado Springs, El Paso County, Colorado, in 1886, likely seeking a more suitable climate for his wife, Katherine Vossler, who suffered from asthma. After three years in the Springs, the Beyles relocated to Salt Lake City, Utah, where they resided for about five years.

By 1896, Ferdinand and his family had returned to El Paso County, this time settling in Colorado City, where he operated a furniture and undertaking business until about 1911. By 1903, the Beyle Furniture & Undertaking Company had become a family business, with Ferdinand serving as president, wife Kate as vice president, eldest son Erwin T. as secretary, and son Leo B. as treasurer. In 1907, son (Ferdinand) Lawrence was working as a clerk, and daughter Julia I. was the company’s bookkeeper.

In 1906, Ferdinand and Erwin expanded their undertaking business into Colorado Springs with the opening of Beyle & Son. Managed by Erwin, the funeral home at 16 E. Kiowa Street offered the “latest and best variety” of undertaking rooms and equipment. About 1911, Ferdinand retired due to failing health. The Beyle Furniture & Undertaking Company closed, and Beyle & Son became Beyle Bros. (Brothers), when Lawrence joined Erwin in running the business. In March 1914, Erwin purchased and remodeled a house at 106 N. Cascade Avenue, which became the Springs location for Beyle Bros. and future Beyle funeral homes.

While at Beyle Bros., Lawrence was elected coroner of El Paso County in November 1912 and served until his untimely death on 28 August 1914 from an infection following an appendectomy. After Lawrence’s death, Erwin was elected county coroner in November 1914 and Leo joined Erwin at Beyle Bros. But in 1917, Leo left the undertaking business and moved to New Mexico to resume a career in banking.

Once Leo departed, Erwin operated the Colorado Springs business under his name—Erwin T. Beyle—identifying himself as “Funeral Director and Embalmer.” About 1930, Erwin’s son, Francis E. Beyle, joined his father’s business, and the funeral home became known as Beyle Mortuary. In 1937, Erwin retired as a funeral home director and Francis took a different career path. The Beyles may have sold their mortuary business to Charles and Lena Nolan, who had opened the Nolan Funeral Home in Colorado Springs in 1935.

10. “Local Enterprise,” *Colorado City (Colorado) Iris*, 23 November 1906, p. 2; citing Special Collections Department of the Pikes Peak Library District, Colorado Springs.

The Beyle Funeral Home Records Project was a two-year joint effort between the Pikes Peak Genealogical Society and the Pikes Peak Library District’s Special Collections Department at Penrose Library in Colorado Springs, Colorado. The mortuary records, abstracted by PPGS, are a compilation of records from several funeral homes in Colorado City and Colorado Springs that were operated by Ferdinand Beyle and/or members of his family between 1897 and 1937. The collection comprises fifty-eight funeral home books that document the deaths of residents of El Paso County, Colorado, and the surrounding area, as well as many people throughout the U.S. who had traveled to Colorado Springs in search of medical treatment for tuberculosis or other illnesses. Other decedents died elsewhere and were shipped to Colorado Springs for burial. The decedents represented all walks of life: business owners, farmers, medical doctors, laborers, Catholic nuns, housewives, children, and even a clairvoyant.

The mortuary records contain a wealth of valuable information that typically is found on a death certificate. They also include funeral-related details, such as the type of casket ordered, name of the attending clergyman, and the identity of the person or entity charged for the funeral expenses, as well as other interesting facts. Although most decedents were identified as “white,” the records also reflect a number of minorities, whose race was documented in the abstracts to help researchers identify their ancestors. The Beyle Funeral Home Record Abstracts contain most of the information available in the mortuary records. (The imaged records can be viewed at the Penrose Library, or a digital copy of a record can be obtained, free of charge, from PPLD Special Collections by emailing specialcollections@ppld.org.)

At least one funeral home book appears to be missing from the Beyle collection, as there is a gap in the records from October 1900 to December 1901. The books provide overlapping coverage of a number of years, particularly between 1906 and 1921. The funeral home books contain more than 5,400 records, although about a third of the decedents have multiple records. Since most of the multiple records have some unique information, PPGS abstracted all of the mortuary records. The Beyles used funeral home books with standardized forms that varied in the type of information that was recorded. For instance, in some books, only the decedent’s age (years, months, days) was documented, while other books contain the age and date of birth. Many books, but not all, recorded the parents’ names and places of birth, when known.

In 2017, PPLD Special Collections financed the digitization of its microfilmed copy of the Beyle funeral home books, which had been donated to the library by Nolan Funeral Home in 1981. PPGS led a group of eighteen volunteers who prepared abstracts of the imaged records, and Special Collections staff entered a subset of the abstracted data into its online Pikes Peak NewsFinder database. PPNF software requirements dictated, in large part, how the information in the abstracts was formatted. When a mortuary record did not contain a specific detail that could be entered into PPNF, such as a date of death or place of interment, the volunteers consulted the Colorado Springs Death Register, obituaries, and local
cemetery records for the information, and if found, included the missing detail in the abstract. Any information that did not appear in a funeral home record was enclosed in brackets, and the source of the information was cited in the Notes section of the abstract.

Although efforts were made to ensure the highest accuracy of the abstracted material, it is always advisable to review the imaged record.

1. PPLD’s copy of the Beyle funeral home records, comprising three microfilm reels, are archived in Special Collections as “Funeral Books,” SC-Microform 363.75 N787F R.1-3. See https://tinyurl.com/y5v48qy6. The PPLD collection was originally referred to as the “Nolan Funeral Home Records Collection,” after the donor of the microfilmed records.

2. Colorado City was annexed by Colorado Springs in 1917 and today is known as Old Colorado City.

4. Pikes Peak NewsFinder is a searchable database containing more than a million entries, derived from newspapers, various sources of death records, and other local records. For information and link to the search portal, see https://ppld.org/databases/pikes-peak-newsfinder-local-newspaper-index.
BEYLE FUNERAL HOME
ABSTRACT NOTES

The following information will help you understand and use the abstracted records.

- To request a free digital copy of an original record page, please contact specialcollections@ppld.org. Include the decedent’s name and abbreviated URL desired.
- If you find a record of interest, look for others for the same person. Because the funeral home kept multiple sets of record books, most decedents have more than one record. The information on each page may be somewhat different, including name spelling.
- If no information appears after a field name, nothing was provided on the original record.
- Items in brackets are corrections of misspellings, expansions of abbreviations or shortened names, calculations of birth dates from ages, and alternate information found in other sources.
- Birth dates in brackets were calculated from reported age at death.
- Dates are recorded in the format Month/Day/Year.
- Names of Catholic nuns: Some records include the sisters’ original given and surnames; some include only the religious name. Those with just a religious name appear under the surname “Unknown.”
- Street addresses without a city are in Colorado Springs.
- State names have been abbreviated to standard two-letter abbreviations.
- Race is not included in the abstract if the decedent was “white;” for other races, the information was documented in the Notes section, as it appeared in the record (Black/Colored/Negro/Indian, etc.)
- The sex of a decedent was usually not identified in the funeral home records but was determined based on the name or occupation of the decedent, or from information in the Colorado Springs Death Register.
- Unnamed babies are recorded as “Infant” for consistency; in a few cases, the given name may be that of the father and not the infant himself.
- Notes: Many of the entries were cross-checked against censuses, city directories, obituaries, cemetery records, and the Colorado Springs Death Register to verify information. If additional or conflicting information was found, it was noted by the volunteers.
- PPLD URLs: An abbreviated PPLD URL is provided for each record. The mortuary records may be viewed on computers at the library, or the library will send a digital copy of the desired records upon request.
- Cemeteries: Evergreen Cemetery and Fairview Cemetery are owned by Colorado Springs. Fairview Cemetery was owned by Colorado City, which was annexed by Colorado Springs in 1917. There is also a Fairview Cemetery in Fountain, to the south of Colorado Springs.
Hospitals or tuberculosis sanatoriums recorded as places of death in these records include the following:

**Bethel or Beth-El Hospital**, founded 1911, predecessor to present Colorado Springs–owned Memorial Hospital, 1400 E. Boulder St.

**County Hospital** at the El Paso County Poor Farm, now Bear Creek Regional Park, for general charity and isolation patients.

**Bonnie View Sanatorium** is listed at 1715 Wood Ave. in 1920 and 209 W. Cheyenne Rd. in 1921 city directories.

**Brady’s Sanatorium** was founded in 1923 as Colorado Springs Psychopathic Hospital by E. John Brady. Now operated as Cedar Springs Hospital, 2135 Southgate Rd.

**Cragmor Sanatorium**, founded in 1905, closed in 1962; current site of University of Colorado at Colorado Springs. It catered to the wealthy.

**Crestone Heights Sanatorium**, established in 1921 by Dr. Thomas J. Evans at 225 W. Brookside St. The sanatorium closed in 1938 following Evans’s death. It is now operated as Brookside Assisted Living.

**Glockner Sanatorium**, founded in 1890, predecessor to Penrose Hospital.

**Idlewold**, established in 1912 by a registered nurse; currently a Ronald McDonald House, 311 N. Logan Ave.

**Montcalm Sanatorium**, established 1895. Closed as a tuberculosis treatment facility before 1928. Now Miramont Castle, which houses the Manitou Springs Historical Society, 9 Capitol Hill, Manitou Springs, CO.

**National Deaconess Sanatorium**, founded in 1904, evolved into Bethel Hospital.

**National Methodist Sanatorium**, part of the Bethel complex, became Ent Air Force Base, now the U.S. Olympic Training Center.

**Nob Hill Lodge Sanatorium**, opened in 1912 at 319 N. Logan Ave. by a registered nurse.

**Observation Hospital**, part of the Bethel complex, built in 1917 as a city and county hospital for patients with communicable diseases and mental disorders.

**Red Crags Sanatorium**, Manitou Springs, CO, was being operated in 1916 by a nurse in a house built by William Bell, a founder of Manitou Springs. It is now operated as a bed-and-breakfast.

**St. Francis Hospital**, with roots dating to 1887, was Colorado Springs’s first hospital.

**Star Ranch Sanatorium**, founded in 1903 in the foothills southwest of Colorado Springs.
Myron Stratton Home, established in 1913 by the will of Colorado Springs philanthropist Winfield Scott Stratton for the benefit of poor children and the elderly. Still funded by Stratton’s estate, the home at 555 Gold Pass Heights operates as a facility for older persons with limited income.

Union Printers Home, opened in 1892 by the International Typographical Union for its ill members. No longer owned by the union, it’s currently operated as a nursing home and assisted living facility at 101 S. Union Blvd.

For history on these institutions and others, see “Tuberculosis Treatment in Colorado Springs” at Wikipedia.com.
